Note

When requesting the photos to be cropped, hence magnified up, should you require. They have been takes for those who may like to have the whole course photographed including the gate. The gate photos sometimes have a haze of dust, this can be enhanced a little.

If photographing at a draft should you request a photo we should be able to have them printed while you are present, or orders will be posted out to you.

Juvenile photos will not be taken unless requested and waver signed.
Depending on size of order a discount maybe considered.
